

“There is no one child or family who has been unaffected by either the pandemic or the larger mental health crisis.”

— EMILY ODJAGHIAN, PSYD
CLINICAL/EXECUTIVE DIRECTOR
LUCY DANIELS CENTER

FROM CHALLENGE TO OPPORTUNITY

Lucy Daniels Center

Helping children live emotionally healthy lives

2022 IMPACT REPORT

MISSION

LDC helps children live emotionally healthy lives through in-depth evaluation and treatment, family involvement, and education.

VISION

LDC envisions a community in which all children feel safe, valued, respected, and supported.

OUR UNIQUES

Lucy Daniels Center views a child's behavior as a communication of need, and equips parents to understand and respond to those needs in a meaningful way. We help families find ways to alleviate the every day struggles while also addressing the root cause of the issues, allowing long-term change and healing to take place.

OUR APPROACH: **Wraparound Care**

Through our wraparound care model, Lucy Daniels Center staff works as a team to keep our families and children at the center of our mission. Our **therapists, teachers, and psychiatrists** collaborate to provide the best possible care experience for families and diligently partner with **parents** to help their children children better understand themselves. And through our **financial aid** opportunities (made possible by your generosity), and our community outreach services we can ensure that more families have access to the care their child needs.

HEALING CHILDREN & FAMILIES

“ Thank you for helping me to process my own childhood fears that I was passing along to my son. My son had his own fears of everything because I was sending a message that he should be afraid. When I realized his fear was related to my own childhood fears, I was able to start to interact with him differently, and now he is not afraid of his environment anymore. He explores his world with happiness and curiosity. ”

— SECUREPATH PARENT

THE NEED

20%

of **children** in the United States have a diagnosable mental health condition

1 in 5

people who seek treatment for a mental health issue go on to receive those needed services

30%

increase in request for **mental health services** at Lucy Daniels Center in the last year

YOUR IMPACT

351

families participated in therapy through our Farley-Manning Family Guidance Service

151

facilitators served statewide, consisting of **31 Circles of Support** sessions with a focus on building strong attachment relationships between parents, caregivers, and their children

826

children and caregivers connected with mental health services this year

41,243

education and enrichment hours of engaging instruction in art, music, STEAM, and outdoor learning and play in an emotionally safe and supportive, therapeutic elementary school environment at Lucy Daniels School

113

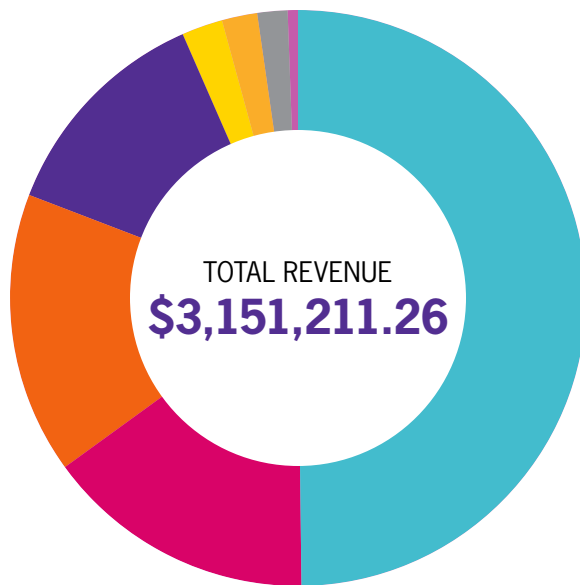

children served by SecurePath clinicians through 2,505 therapy hours

250

hours of Lucy Listens, providing free telehealth services to families and children grappling with the effects of the pandemic

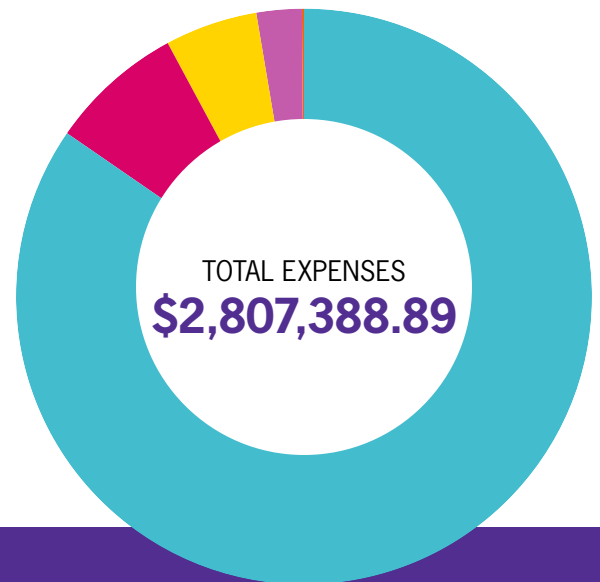

CREATING OPPORTUNITY

Our Community of Champions for Mental Health

OUR HISTORY

Founded in 1989, Lucy Daniels Center is the largest nonprofit provider of social, emotional, behavioral, and mental health services exclusively for children in the Greater Triangle area. We serve more than 700 children and their families yearly and provide more than 20,000 hours of direct social, emotional, and mental health services to children from birth to age 12, the time of life when the most effective interventions are possible.

“*Lucy Daniels Center forms an interdisciplinary treatment team who works closely with families. We help parents better understand their child so they are in a strong position to provide support for their child’s unique needs.*”

— LUCY DANIELS CENTER THERAPIST

In the past two and a half years, Lucy Daniels Center has seen a 115% increase in the number of families seeking mental health services. The Triangle community is asking for our help, and we must respond to this incredible need. There is no one child or family who has been unaffected by either the pandemic or the larger mental health crisis. Addressing the social and emotional needs of our children is the most important way we can care for and invest in their futures.

With your commitment, we can continue to meet this need together to ensure that more families have access to our life-transforming services.

Thank you for your generosity and support of the children and families we serve.

Gratefully,

Emily Odjaghian, PsyD
Clinical/Executive Director
