increase in requests for services at the Lucy Daniels Center

OUR RESPONSE

30K+

hours of mental health services provided

45%

increase in total financial aid dollars provided

36%

of students receive financial aid

826

individuals served (children and parents)

Connecting children and families with sustainable solutions

“An LDC clinician is a sort of storyteller, looking for themes and events throughout a child’s life (and their parent’s) to help them tie together and make sense of their own life story.”

— Farley-Manning FGS Clinician

The Farley-Manning Family Guidance Service provides on-site and telehealth therapy for children ages birth through 11 years old and their families. Our clinicians specialize in children’s mental health and walk directly alongside children and families on their journeys to healthier lives and relationships. Clinicians build and maintain lasting connections that are rooted in trust, support, and stability. Financial assistance and telehealth options ensure a reduction in barriers to service access that many families in our community face.

Connecting children to themselves, peers and caregivers

“SecurePath therapy services help young children from all backgrounds overcome fear, anxiety, trauma, and other barriers to help them be successful in school and in life.”

— SecurePath clinician

Through SecurePath, our staff provides no-cost, on-site (home or preschool) assessments, interventions, and therapies for children ages birth to five. Staff assess each child’s unique needs and then recommend a course of action for parents and teachers to implement. SecurePath clinicians help parents understand their child’s needs and provide tools to help strengthen the parent-child relationship. SecurePath also helps children become Kindergarten-ready, setting them up for success in reaching key developmental milestones.

Connecting children to an understanding learning environment

“The warmth of a supportive environment is not only palpable to me, but it allows my child to feel comfortable and free to truly focus on releasing anxiety and developing in the best ways he can.” — Lucy Daniels School Parent

At the Lucy Daniels School, children and families are provided with wrap-around services that promote social, emotional, and academic growth. We serve students from preschool through fifth grade and offer tuition assistance options to decrease financial barriers to services. At Lucy Daniels School, students and families are met with respect, understanding, and compassion. Students thrive in our stable and supportive learning environment that also provides individual therapy and regular parent counseling.

SHOW YOUR SUPPORT

We believe in connecting children and families to services that help them understand themselves, each other, and the larger community. These last few years have only further highlighted the need for wrap-around services to support the whole health and well-being of a child. **We need your support now to provide low-barrier access to mental health services for children and families.**

Any amount of financial support makes a difference! Fill out the enclosed remit envelope or donate securely online at lucydanielscenter.org/give.

Your support ensures children and families are connected to vital educational, behavioral, and mental health services that provide hope and solutions for bright futures.
